

Meridian Foods

Annual Report — Fiscal 2024

Meridian Foods is a packaged-goods manufacturer specialising in plant-based protein products. In fiscal 2024 total revenue was \$274 million as the company launched in 3,000 additional retail doors and reformulated its flagship line to reduce sodium by 20%.

Quarterly revenue was \$61 million in Q1, \$64 million in Q2, \$70 million in Q3, and \$79 million in Q4, with sequential growth driven by expanded distribution and new product launches.

The Retail segment generated \$208 million, Food service \$52 million, and International \$14 million. Volume growth was strong, but input-cost inflation on pea protein compressed operating margin to 9.4% from 11.1% a year earlier.

The company is investing \$60 million in a second manufacturing facility to relieve capacity constraints expected by fiscal 2026.

Meridian guides fiscal 2025 revenue to approximately \$320 million and expects margin recovery as commodity costs normalise.
