

Helios Energy

Annual Report — Fiscal 2024

Helios Energy operates utility-scale solar and battery-storage assets across the southwestern grid. Fiscal 2024 saw 1.2 GW of new capacity reach commercial operation.

The company's storage segment grew fastest as arbitrage revenue from time-shifting cheap midday solar into evening peaks more than doubled.

Helios funds growth through a mix of project debt and tax-equity partnerships; rising interest rates remain the principal headwind.

Quarterly Revenue

Quarter	Revenue (\$M)
Q1	140
Q2	158
Q3	205
Q4	176

Revenue by Segment

Segment	Revenue (\$M)
Solar generation	512
Battery storage	121
Grid services	46
