

Meridian Foods

Annual Report — Fiscal 2024

Meridian Foods is a packaged-goods maker specialising in plant-based protein. In fiscal 2024 it reformulated its flagship line to cut sodium by 20% and launched in 3,000 additional retail doors.

Volume growth was strong but input-cost inflation on pea protein compressed operating margin to 9.4% from 11.1% a year earlier.

The company is investing in a second manufacturing facility to relieve capacity constraints expected by fiscal 2026.
